

Auger Compactors

Non-hydraulic, all-electric compaction designed for bulk waste and hard-to-destroy materials with high throughput.

Features & Benefits

- Ideal for Compacting Bulk Waste and Hard to Destroy Items
- Non-Hydraulic, All Electric Operation
- Efficient Operation by Compacting Materials up to Five Times Faster
- Easy to Maintain and Reduction in Labor Costs

Designed For

- Industrial Manufacturing
- Hospitals
- Logistics Hubs
- Distribution Centers

Equipment Specifications

Description	Value
Clear-Top Opening (L x W)	68 1/2" x 72 3/4"
Weight	6,950 lbs.
Auger Speed	10 rpm
Cycle Time	13 seconds
Electric Motor	20 HP
