

# Manual Tie Horizontal Baler

Top-feed horizontal baler with manual tie-off, ideal for single material baling at lower throughput volumes.

## Features & Benefits

- Top feed
- Finished bales eject out the end of the baler
- Automatic cycling via photo eye sensor
- Manual tie (hand tie off by operator)
- Best suited for single material baling
- Max output up to roughly 2.5 tons per hour (OCC)

## Designed For

- Distribution Centers
- Industrial Manufacturing
- Hospitals
- Production Facilities

## Manual-Tie General Specifications
